

Connellsville Area School District

Grade 3 Dental Permission

Student's Name

The Laws of the Commonwealth of Pennsylvania provide for a periodic dental examination of all children in third grade. The school dentist will be examining the students during the school year at the Connellsville Area Career and Technical Center. The students will be transported by bus as a class to and from the facility along with their teacher. If the examination is not completed by the school dentist it must be done by your family dentist at your personal expense. A form will be provided for your dentist to complete. All children will be transported to the CACTC; however, if a private exam is requested your child will not be examined.

PLEASE CHECK:

_____ Please examine my child at school.

_____ Private Exam (Form must be returned to the School Nurse).

Signature of Parent/Guardian

Date _____
