

Greetings!

Public education has undergone significant changes over the past ten years. Global competition has created a playing field where our students must be prepared to meet the challenges of a “flat” world. The Connellsville Area School District must now equip students to compete not just on a local level but at the national and international level as well. Success will be measured in two ways: first, by our ability to accurately identify these challenges and secondly our ability to adopt our programs accordingly. All of this change needs to be delivered within a context of our recognition that you, the community, are our customers and students are our clients.

We have many positive things going on in the district. Just a casual look through our local paper and one can find examples of our many pockets of excellence. Since arriving in the district I have been afforded the opportunity to meet many of the faculty and staff that make these things possible. If I had to use an adjective to describe Connellsville Area School District it would be ‘potential’. The opportunities are sitting at our doorstep and I am excited to be involved in opening the door.

I look forward to working within this district and living in the community. My door is always open. Together we can achieve.....

D. Goodin, Superintendent
