Please review the attachment for an explanation of school improvement and more information on how the Connellsville Area School District compares to other Pennsylvania schools.

Action Plan for Improving Student Achievement

As a result of an in depth needs assessment, Junior High West has identified the following areas as key strategies for instructional improvement:

- Alternative Method of Instruction in Reading and Math
- Additional Instructional Time
- Targeted Instructional Content
- Professional Development

As outlined in our school improvement plan, the school district and the Pennsylvania Department of Education will be offering Junior High West assistance to implement these strategies.

Explanation of School Choice Option

According to NCLB, Junior High West must offer students the choice to transfer to another school in the district not in School Improvement. Please know that the staff at Junior High West has a relationship with your child and wants to continue serving your child all the way through 9th grade. Since Junior High East is also in School Improvement, the district will be unable to offer School Choice.

How parents and Families Can Help Improve Student Achievement

Parent support is essential to the success of Junior High West. Communicating with your child's teachers, making sure your child attends school regularly, helping your child with homework, monitoring your child's television time, volunteering in the classroom, and participating in school decision-making are important.

The district-wide parent involvement policy will be updated this fall. If you are interested in providing input for this policy, please call Tammy Stern at 724-628-3300 x307. In addition, Junior High West will have its annual meeting to revise our school parent involvement policy and parent compact and to review parent rights under Title I.

The many successes at Junior High West cannot be measured in one test and we appreciate your continued support. We must admit however, that if ALL of our students are not doing well, we are not as good as we can be. That is our challenge, our goal and our commitment. Please continue to work with us to make sure that we achieve success for every student.

Sincerely,

Geoffrey Snyder
PRINCIPAL

ADDITIONAL NCLB INFORMATION

Explanation of School Improvement

Any school that fails to meet state targets or Adequate yearly Progress (AYP) for one year is considered in Warning and is not identified for School Improvement. However, when the school fails to meet targets for two years in a row the school must be identified as a school in need of improvement and given the designation of School Improvement I. For each successive year that a school does not make AYP, the school advances to another level of school improvement. For example, a school that is in School Improvement I that fails to make AYP will be identified as School Improvement II. A school that fails to make AYP for the fourth year is listed in Corrective Action I and for the fifth year, Corrective Action II.

If a school makes AYP at any point after being identified in School Improvement, the school will not advance to the next level. The status is defined as Making Progress and still considered in School Improvement at the same level as the previous year. If the school makes AYP for the second consecutive year the building is no longer in school improvement. On the other hand if the school misses AYP after a year of Making Progress the school proceeds to the next designated level of School Improvement.

Comparison of Connellsville Area School District with Statewide Goals

The Pennsylvania Department of Education tracked statewide gains in student achievement between 2002 and 2011 in reading and mathematics for the following subjects and grades:

STUDENT ACHIEVEMENT RESULTS COMPARISON

Percentage of Students Scoring Proficient or Advanced

	Grades 3-5 Reading	Grades 3-5 Math	Grade 8 Reading	Grade 8 Math	Grade 11 Reading	Grade 11 Math
School Scores	63.2%	72.9%	64.3%	62.8%	58.9%	57.7%
*PA 2010 Scores	75%	84%	64%	74%	82%	75%

*2011 state results not available yet

What are Supplemental Educational Services?

Supplemental Educational Services (SES) are extra academic services available in schools identified for School Improvement II or Corrective Action. Free tutoring is offered after school or on Saturday to help eligible students to improve in reading, mathematics and science.

How Parents and Families Can Help Improve Student Achievement

Your support is not only essential to your child's success, but to the success of the school as well. Under NCLB, parents are to be involved in the school improvement process and to help write the school's School Plan. This is the plan to help raise the student achievement of all children in the school. Parents also have the right to help create or update the school's parent involvement policy and the home-school compact. You can contribute to your child's academic success by ensuring that your child attends school regularly, comes prepared to learn and completes all homework. Please plan to attend the Title I and Parent School Community Council meetings to obtain more information about school improvement activities and parent engagement opportunities at your child's school
