

Title I Parent Involvement Policy

South Side Elementary

1. Parents will be informed of the availability of Title I services at South Side Elementary.
2. The curriculum for Title I services will be based on proven practices and aligned with the curriculum. Title I services will be used to support the needs of the student.
3. Parent Conferences will be held and parents will have the ability to set up conferences during that time to discuss the progress and needs of the child. Parents will also have the ability to call and schedule conferences at other times throughout the year as concerns are raised regarding their child's progress with Title I support.
4. Title I will hold a parent involvement workshop each grading period to enhance parent understanding of their child's needs and ways that the school and the parents can work together to help each child attain the standards.
5. A parent/school and a student/school compact has been developed and adopted by the Title I parents. Copies of these compacts have been sent home to parents and also posted on the school website. It is the responsibility of all parties to help the students in achieving a successful educational experience.
