

GUIDANCE

Mission Statement

"The mission of the Connellsville Area School District's School Counseling Program is to provide a comprehensive, preventative, and developmental program addressing academic, career, and personal/social goals of each of our students. School counselors are leaders and advocates working with the CASD educational stakeholders both inside and outside the school system to promote student success. School counselors work collaboratively toward the common goals of equity, access, and academic success for each of our students. In partnerships with all CASD stakeholders, school counselors will facilitate a comprehensive and supportive school counseling program dedicated to prepare every CASD student with the knowledge and skills to become responsible, successful, and productive life-long learners"

Springfield Elementary/Clifford N. Pritts Elementary School Counselor
